-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information referred to in the information disclosure statement filed June 2, 2006 has been considered with the exception of JP 02071347. The Examiner has been unable to locate a copy of this prior art reference. It is requested that Applicant provide a copy of the reference for proper consideration.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1 of claim 1, "the seat back inclination" lacks proper antecedent basis. In line 4 of claim 1, "the zero value" lacks proper antecedent basis. In line 6 of claim 1, "the individual weight" lacks proper antecedent basis. In lines 7, 9, and 18 of claim 1, it is unclear if "ascertained length change", "the transmitted distance changes", and "the distance change" are intended to be the same feature. Lines 18 to 19 of claim 1 are grammatically vague. Note the recitation "in dependence on the distance change the surface of the volume body (D)". In line 19 of claim 1, "the energy storage means" lacks proper antecedent basis. Lines 3 to 4 of claim 2 appear to lack proper punctuation.

Note the recitation "in dependence on the distance change elastomer material of differing density is disposed". Claim 8 appears to contradict claim 3, from which it depends. The remaining claims are indefinite since each depends from an indefinite claim.

Allowable Subject Matter

Claims 2-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Corning (2587822) shows a resiliently mounted chair back. Kimura (6520023) shows a load detection means for a seat bottom. Vogtherr (6116687) shows an elastomeric block for a seat back.
